Frequently Asked Questions

1. What types of mobile applications do you develop?

We develop custom mobile applications for Android and iOS, including business,

eCommerce, healthcare, education, logistics, booking, enterprise, and on-demand apps.

2. Which technologies do you use?

We use Flutter, React Native, Kotlin, Java, Swift, and API integrations to build secure, scalable, high-performance mobile applications.

3. Can you develop apps for both Android and iOS?

Yes. We build native Android and iOS apps as well as cross-platform applications using Flutter and React Native.

4. How long does it take to develop a mobile app?

A standard business app generally takes 4-8 weeks, while enterprise or custom applications may require 8-16 weeks depending on project complexity.

5. Why choose iSoft360 InfoTech for mobile app development?

We deliver secure, scalable, and user-friendly mobile applications with complete services from planning and UI/UX design to development, testing, deployment, and ongoing support.
